GENERAL NEWS.

Business quiet. CLOUDY weather and warmer. CAPT. SAM BROWN of Pittsburg is in

the city. THE river here stands 19 4-10 feet on the gauge, a rise of 2-10 in the last 24

hours. RECEIPTS by river yesterday, 252 bales of cotton, 63 bags of seed-cotton and 365 sacks of seed. THE Kate Adams arrived yesterday morning from Arkansas City with 252

bales of cotton, 63 bags of seed-cotton and 265 sacks of seed, and returned again last evening with a good trip. THE Globe-Democrat of the 27th says: "The river is swelling very slowly. This is now thought to be a natural rire, and not from the gorge. Without rain river men are clined to the opinion that it will take three weeks or more of warm weather to have any effect toward moving the ice blockade. Capt. John Alt, harbor and wharf commiss oner: 'I do not purpose to use dynamit; in trying to clear the harbor of ice until about 48 hours before the general break-up takes place. My object is to get the ice broken up below the bridge and let pass out before the ice north of the bridge makes a start. This will give the it ambouts some chance to fight the ice coming fom the bridge and possibly an opportunity to follow the first gorge out and get in below Arsenal Island. A general movement of the ice without those measures means, I think, vart damage to the craft in the harbor."
